Wood

The trug of mixed wood and the kindling in your dome on arrival is included in your stay.

The crates of wood in your wood store on the side of the deck are included in your stay. It is all suitable to burn in the fire pit or hot tub with the smaller bits being better for the internal stoves.

The total amount of wood varies on the length of your stay and if you are staying for a full week your wood will be replenished half way through the week.

It is possible to buy boxes of small, very dry kindling for £5 each and boxes of eco firelighters for £4 each. You will also be able to buy additional crates of wood and these are charged at £10 each. Please just ask.

Firelighting takes time, practice and patience.

If you have any problems with wood or firelighting during your stay please do not hesitate to contact us for some tips and advice to ensure you stay warm and cosy!

Thanks Emma and the team.
